

data analyst

- One of the world's leading humanitarian aid agencies
- Best practice data driven fundraising organisation
- Sydney, CBD

Australia for UNHCR is an Australian aid agency which raises funds from a broad network of Australian donors to support the international humanitarian operations of the UN Refugee Agency.

Due to significant growth in the organisation, a new position has been created for an experienced Data Analyst. As a best practice fundraising organisation, Australia for UNHCR is committed to improving performance and through your effective data management, reporting on all marketing activity and analysis of results, you will contribute significantly to this effort.

You will have a strong background in data analysis and data-driven marketing. Ideally you have experience in the sector with a working knowledge of Raiser's Edge, however commercial experience will be considered for those who can demonstrate strong logical, analytical and problem solving skills along with advanced MS Excel.

If you are eager to use your skills to help the plight of the world's refugees, please send your resume and covering letter to cv@ngorecruitment.com quoting #31022 or contact Annie Barker on (02) 8243 0570 for further information.
