

# data manager

- **Leading humanitarian INGO**
- **Raisers Edge experience strongly preferred**
- **Best practice data driven fundraising program**

Medecins Sans Frontieres Australia (MSF) is one of 19 national offices committed to delivering medical-humanitarian aid to populations in crisis in over 70 countries. In 2010, 130,000 supporters of MSF Australia donated over \$56.8 million primarily via the database, to the work of the movement.

Reporting to the Head of Fundraising, you will be the custodian of MSF's donor data, having primary responsibility for the maintenance and facilitation of the data to be used by a wide range of internal stakeholders. As the administrator for both Raisers Edge and the Payment Gateway, you will develop programs and projects to enhance and maintain data quality and integrity to ensure the smooth transfer of data.

Ideally you have held a leadership position within a best practice data driven fundraising team, within an international NGO or large domestic charity. You have an advanced working knowledge of Raisers Edge with previous experience working with a large regular giving program or similar sophisticated donation environment.

**If you would like to use your superior analytical skills to support MSF Australia to deliver medical aid please contact Richard Green or Annie Barker on (02) 8243 0570 or forward your resume and covering letter to [cv@ngorecruitment.com](mailto:cv@ngorecruitment.com) quoting ref # 30977.**
