

act!onaid

database analyst

- **Leading humanitarian aid & development agency**
- **Manage & develop the Raisers Edge database**
- **Similar CRM system experience welcomed**

ActionAid Australia is a rights based anti-poverty agency addressing the root causes of poverty and injustice - not just the effects. At the heart of ActionAid's work is the belief that each of us, rich or poor, is entitled to the same basic human rights. ActionAid's mission is to work alongside poor, excluded and vulnerable people to end poverty and injustice together.

The management and development of ActionAid Australia's supporter database is the focus of this role, providing high quality data analysis to maximise marketing opportunities to ensure fundraising and community engagement goals are achieved. Your responsibilities will include database, data and project management, as well as comprehensive reporting.

You have an advanced working knowledge of Raisers Edge or similar CRM system, including records management, query & report development and list extractions along with hands on experience writing complex SQL queries. You can demonstrate strong logical, analytical and problem solving skills.

If you are eager to use your skills in support of some of the world's most disadvantaged communities, please contact Richard Green or Annie Barker on 02 8243 0570 or email your CV to cv@ngorecruitment.com quoting Ref # 30980.
