

membership & foundation manager

- **Newly created role**
- **Fundraising experience essential**

Dating back to 1826, the State Library is an internationally renowned cultural centre that documents, more than any other place, the discovery and development of Australia and the Pacific. Its collections contain in excess of 5 million items, conservatively valued at \$1.9 billion. The Foundation is the entrepreneurial fundraising arm that provides the community the opportunity to support this unique institution.

In this newly created role you are primarily responsible for growing philanthropic income via membership streams, donations and bequests. You will also ensure activities are conducted in line with legal and fiduciary compliance.

You will have fundraising, marketing and brand management experience with a track record in annual appeals and renewal programs, as well as best practice 'pledge' and 'e' giving techniques. Your excellent mediation and negotiation skills will ensure you meet the expectations of key stakeholders. You will represent the Foundation whilst working closely with the Executive Director. Would also suit someone looking to step up.

If you are looking to make a major impact on one of Australia's leading cultural institutions then please call Richard Green on 02 8243 0570 or send your résumé to ngo_12@ngorecruitment.com
